

Axair Group – For a better indoor air climate !

Humidification – Chillers – Close Control – Split and Mobile AC – Dehumidification

Axair Group belongs to **WMH Walter Meier Holding AG** quoted at the stock exchange of Zurich. **WMH** is active in three market sectors:

WMH Tools, WMH Air Conditioning and WMH Heating

Axair Group operates within **WMH Air Conditioning** and has divided its activities into three business divisions: The manufacturing companies for humidification products and -systems are organized within **Axair Products**. Today Axair is a worldwide leader in development, manufacturing and distribution of humidification units and systems. Axair offers a complete product range including all humidification techniques. The international sales net is based on more than **50 representatives worldwide, 120 agents covering the NAFTA market** and finally **own sales companies**, located in Switzerland, Germany, United Kingdom and France.

This sales companies with their large HVAC-product portfolio are consolidated under the name of **Axair Distribution**. The main Chiller, Close Control and Air Conditioning suppliers of Axair Distribution are pioneers in the use of new environmental friendly refrigerant R410A. Axair is also actively represented on various specialist committees for environmental friendly refrigerants and for the improvement of energy coefficients.

Engineering and turn-key projects in air humidification and air cooling activities, like “Full-Service solutions” for the paper- and printing industry, adiabatic outdoor cooling and for all other industrial applications, where water treatment and humidification is a combined goal, the operation is coordinated within **Axair Engineering**.
